

Map Change Detection

- If you are not logged in, please login to your existing Exactix account at <https://811.indiana811.org/login>. If you no longer have your password, request to have a temporary one sent from the login page.
- From the menu on the left, click on Service Areas then click on Registrations.

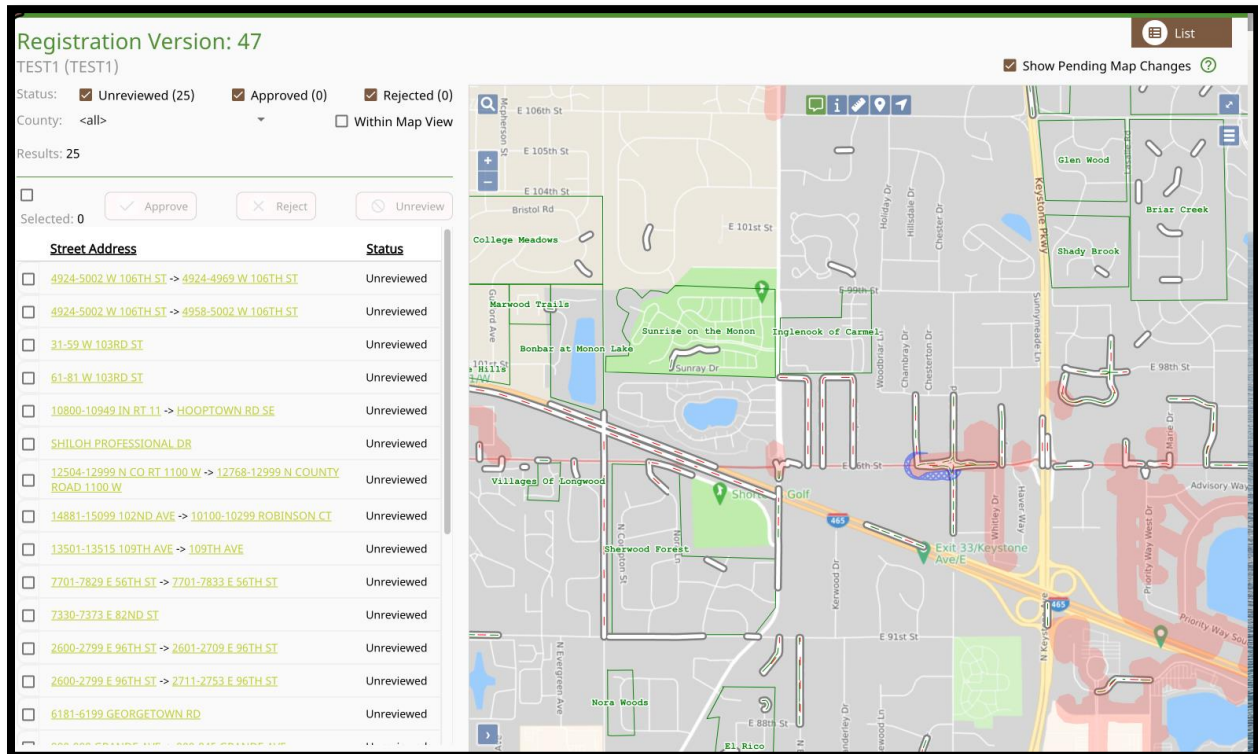

Reviewing Recommended Changes

- There will be two options related to MCD from within the Registrations tab. If Review proposed recommendations is not displayed, then there were no changes to the base map that affect your Service Area and no further action is required.

- After clicking Review Proposed Changes, a list of recommendations will be displayed. The area in red is your current service area. The list will default to showing the Status (e.g., Unreviewed (25), Approved (0) and Rejected (0)). After you Approve or Reject the recommendations, the Status numbers will change.

- If you click on one of the recommendations, the street segments that have changes will be displayed in blue.

<input type="checkbox"/> 6181-6199 GEORGETOWN RD	Unreviewed

- After you Approve or Reject recommendations, you can re-select and click Unreview to clear the Status.

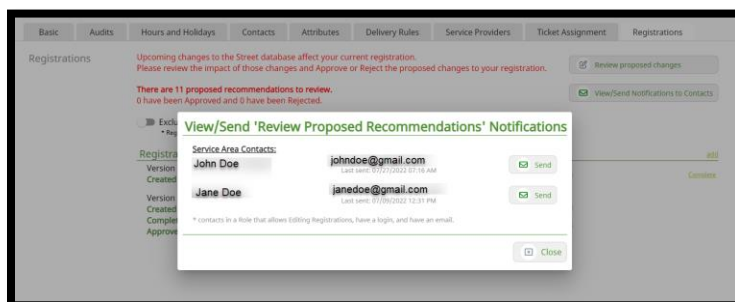

- If you select Reject, the Status changes to Rejected and the map will show those recommendations in yellow. In the example below, the 2 recommendations on W 103rd St now show Rejected.

View/Send Notifications to Contacts

- The user responsible for viewing recommendations can email notifications to themselves or other individuals who have an existing Exactix account with permission to view/edit their Service Area. The email contains the same information as when MCD was initiated. The current Status of the recommendations will be in the email.

- If a different person needs permission to edit the map, please fill out the form that can be found at [Indiana 811 Member - Service Area Database/GIS Contact for Mapping/GIS](#).
- If you have any questions, please contact Member Services at memberservices@indiana811.org or 833-538-0923.
